

Application No. 10/736,740

### REMARKS

Applicant has carefully studied the outstanding Official Action mailed on April 12, 2005. This response is intended to be fully responsive to all points of rejection raised by the Examiner and is believed to place the application in condition for allowance. Favorable reconsideration and allowance of the application are respectfully requested.

The specification stands objected due to an informality. The specification has been amended accordingly to overcome this objection.

The drawings stand objected under 37 CFR 1.83(a) because the energizing coils of claims 5 and 6 have not been shown in the drawings. Also it is unclear where element 52 ends and element 10 begins. The drawings have been amended and are submitted herewith. Specifically, lead wires, grounding and a generator have been shown in Fig. 4. The bounds of element 52 have been clearly marked in Fig. 8.

Claim 14 stands objected due to an informality. The claim has been amended accordingly to overcome this objection.

It is respectfully submitted that all the claims are now in a condition for allowance. Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,  
DEKEL PATENT LTD.
